

## Now Offering Hydraulic C-Frame Presses

**W**e have been known for years for our innovative design and manufacturing of high quality tooling, dies and custom machinery. Now we are adding to our comprehensive list of services, Made-to-Order

### Hydraulic C-Frame Presses

Presses are not something completely new to us. We have been designing and building hydraulic powered press equipment for over ten years. We have also managed countless projects integrating our tooling into other manufacturers presses.

We know that no two projects are exactly the same; each has its own unique needs. We will work closely with you to determine the exact needs for your application. Then we'll design a high quality press that meets your needs and exceeds your expectations.

By adding this capability we are now able to provide you, our customer, with true One-Stop service for: Design and Manufacturing of Tooling and Hydraulic Presses . Bring us the application and we'll provide the solution.

Please contact us today with your pressing application. To help us really understand your needs, be sure to send us a completed Press Quote Form.

Product-Level **Quality**
